

SACHIN NAGILA

PROFESSIONAL SUMMARY

Software Developer with expertise in design, testing and maintenance of systems across various technologies and frameworks. Keen in cutting edge development practice, tools and procedures and committed to continuous professional growth to deliver scalable applications.

WORKING RIGHTS

Permanent Resident (Full- Time Working Right)

WORK HISTORY

Full Stack Developer, 02/2024 - Current
REBB TECH, Sydney, Australia

- Integrated third-party APIs to enhance functionality and improve overall user experience on web platforms.
- Enhanced user experience by developing and implementing a responsive front-end interface for web applications.
- Used NodeJS and SQL/No-SQL to develop and manage databases.
- Reviewed code, debugged problems, and corrected issues.
- Reduced page load times by optimizing front-end assets such as JavaScript files, stylesheets, and images.
- Collaborated with cross-functional teams to design, develop, and launch new features for web applications.
- Enhanced database efficiency with design of normalized database schemas.
- Developed responsive web designs, ensuring compatibility across various devices and browsers.
- Facilitated seamless user journeys, integrating third-party APIs for expanded functionality.
- Used Git for efficient version control and implemented CI/CD pipelines for continuous integration and delivery.
- Worked in an agile environment, contributing to sprint planning and scrum ceremonies.

Frontend Developer, 02/2023 - 10/2023
UX-Qode, Singapore

- Utilized HTML, CSS, and JavaScript to create visually appealing and responsive web pages that met client requirements.

MEMO

Please visit my portfolio website for more info and visit my personal projects.

- Coded using HTML, CSS, and JavaScript to develop features for both mobile and desktop platforms.
- Produced websites compatible with multiple browsers.
- Worked closely with UX/UI designers to translate their designs into functional web applications.
- Utilized version control systems such as Git to track changes throughout the development process.
- Contributed to projects within Scrum project management environments.
- Maintained website performance by conducting regular updates and addressing compatibility issues across various platforms.
- Optimized web applications for speed, scalability and security.
- Planned and engineered RESTful web services to manipulate dynamic datasets.

EDUCATION

Bootcamp, Software Development , 11/2023

Dented Code - Sydney, NSW

- Gained experience in React (can be migrated to Angular), HTML 5, CSS frameworks , NodeJS and ExpressJS.
- Gained experience with RESTful APIs and cloud based microservices architecture
- Gained proficiency designing scalable, cloud-native, distributed software utilizing modern development architectures
- Gained experience in AWS Cloud Technologies.
- Gained on various vendor API integrations.
- Gained experience in designing scalable, cloud-native, distributed software utilizing modern development architectures

Bachelor of Information And Communication Tech

University of Tasmania
