Sachin Nagila

SN

Professional Summary

Dynamic and driven Full Stack Developer with a strong passion for software development. Skilled in designing, testing, and maintaining systems across various technologies and frameworks, including React, Node.js, TypeScript, and AWS. Seeking to leverage expertise and experience to contribute to a dynamic team. Proven track record in developing and maintaining scalable web applications, integrating third-party services, and delivering high-quality solutions in Agile environments. Adept at collaborating with cross-functional teams to drive innovation and improve system efficiencies. Committed to continuous learning and professional growth.

Work History

REBB TECH - **Full Stack Developer**
Sydney, Australia
02/2024 - Current

- Integrated third-party APIs to enhance functionality and improve overall user experience on web platforms.
- Enhanced user experience by developing and implementing a responsive front-end interface for web applications.
- Used NodeJS and SQL/No-SQL to develop and manage databases.
- Reviewed code, debugged problems, and corrected issues.
- Reduced page load times by optimizing front-end assets such as JavaScript files, stylesheets, and images.
- Collaborated with cross-functional teams to design, develop, and launch new features for web applications.
- Enhanced database efficiency with design of normalized database schemas.
- Developed responsive web designs, ensuring compatibility across various devices and browsers.
- Facilitated seamless user journeys, integrating third-party APIs for expanded functionality.
- Used Git for efficient version control and implemented CI/CD pipelines for continuous integration and delivery.
- Worked in an agile environment, contributing to sprint planning and scrum ceremonies.

Skills

- Front-end Technologies: HTML5, ES6, JSON, ReactJS, JS, React-Redux, Context, React-Hooks, CSS3, SCSS, SASS, Material-UI, MaterializeCSS, CSS in JS

- Back-end Technologies: JavaScript, Restful API

- Back-end Open Source: NodeJS, ExpressJS

- · Programming Languages — JavaScript, TypeScript, Exposure to Python

- TDD: JIRA, Jest

- CI/CD: Git/GitHub, Bitbucket , Gitlab

- Authentication: goggle AUTH, JWT

- Application Server: Express

- Cloud Services: Firebase

- Operating System: Mac OS, Windows, Linux (Bash/Shell)

- Tools: Visual Studio Code, Postman, JIRA, Office365

UX-Qode - **Frontend Developer**
Singapore
02/2023 - 10/2023

- Utilized HTML, CSS, and JavaScript to create visually appealing and responsive web pages that met client requirements.
- Coded using HTML, CSS, and JavaScript to develop features for both mobile and desktop platforms.
- Produced websites compatible with multiple browsers.
- Worked closely with UX/UI designers to translate their designs into functional web applications.
- Utilized version control systems such as Git to track changes throughout the development process.
- Contributed to projects within Scrum project management environments.
- Maintained website performance by conducting regular updates and addressing compatibility issues across various platforms.
- Optimized web applications for speed, scalability and security.
- Planned and engineered RESTful web services to manipulate dynamic datasets.

Working Rights

Permanent Resident (Full- Time Working Rights)

Education

11/2023
Dented Code
Sydney, NSW
BootCamp, Software Development

- Gained experience in React (can be migrated to An, HTML 5, CSS frameworks , NodeJS and ExpressJS.
- Gained experience with RESTful APIs and cloud based microservices architecture
- Gained proficiency designing scalable, cloud-native, distributed software utilizing modern development architectures
- Gained experience in AWS Cloud Technologies.
- Gained on various vendor API integrations.
- Gained experience in designing scalable, cloud-native, distributed software utilizing modern development architectures

University of Tasmania
Hobart, TAS
Bachelor of Information And Communication Tech
